* Artwork specification for modifications and adjustments

If sending a Photoshop file or any full coverage JPG or TIF these must be saved as CMYK, minimum resolution of 300dpi, and should have at least 3mm bleed all round to allow for positioning adjustment.

Adaptapaks are printed using 250gsm board.
Tray colours can be Black, White, Matt Transparent or Clear Transparent.

Please ensure all artwork is saved as CMYK. Unless Pantone colours are specified.
All fonts used must be supplied, if not possible please save all text as outlines.
Minimum Line width = 0.2mm, Minimum text size = 6pt.

Black lines shown above are for reference only, do not show on finished artwork.
